Governing Agreement	Master Services Agreement (MSA) between Client and Digerati Experts, LLC

1. Service Overview

Digerati Experts will manage network security and connectivity services including firewall/VPN/Wi-Fi management, segmentation and access policies, and (where selected) network modernization via overlay/SASE and support for existing hardware during transition.

2. Scope of Services

- Network security platform: policy configuration, monitoring, VPN/remote access, and secure Wi-Fi standards.
- SASE/ZTNA (optional / included by tier where applicable): identity-aware access and segmentation for remote users and SaaS apps.
- Network integration option: modernization for existing hardware without rip-and-replace; transitional support for Meraki/Cisco/SonicWall/UniFi.
- Documentation: network diagrams, asset inventory, and standard configuration baselines.
- Lifecycle planning and end-of-life recommendations.

3. Deliverables & Reporting

- Network diagram(s) and configuration summary (updated upon material changes).
- Remote access and access control policy documentation.

4. Client Responsibilities

- Client provides access to network gear and ISP account information.

- Client approves maintenance windows for changes/cutovers.

5. Exclusions / Out of Scope

- ISP outages outside Digerati control.
- Cabling/construction/electrical work unless separately quoted.

6. Term, Changes, and Acceptance

This SOW begins on the Effective Date and continues for the selected term. Hardware purchases are separate unless explicitly included.

6.1 Acceptance Criteria

- Network policies deployed and validated; remote access verified for designated users.
- Network documentation delivered within «X» days after stabilization.
