SOW Details

Field	Value
SOW Number	CORE-IT-001
Client	«Client Legal Name»
Effective Date	«Effective Date»
Term	«Initial Term / Month-to-Month / Multi-Year»
Governing Agreement	Master Services Agreement (MSA) between Client and Digerati Experts, LLC

1. Service Overview

Digerati Experts will deploy and manage the Core IT foundation that underpins Client's DE service tier: identity and access, endpoint management, remote monitoring and management (RMM), network security platform, service desk operations, and baseline SaaS backup. This SOW is modular and supports one platform lane per environment (Microsoft Native or Cross-Platform) to reduce overlap and improve security and supportability.

2. Scope of Services

- Platform Lane Selection (one lane per environment): Lane A — Microsoft Native (Entra ID + Intune + Autopilot) OR Lane B — Cross-Platform (JumpCloud + Atakama).
- Identity & Access Platform: directory, MFA/SSO policies, access controls, and device-based access requirements.
- Endpoint Management: enrollment, patching standards, configuration baselines, and software policies.
- Remote Management Platform (RMM): monitoring, alerting, automation, inventory, and health reporting.
- Network Security Platform (Office+): configuration and policy management for supported environments.
- SaaS Backup (all tiers): backup for collaboration data (e.g., Microsoft 365 / Google Workspace) as defined in tier matrix.
- DE Service Desk & Ticketing (all tiers): ticket intake, triage, escalation, and communications.
- Optional add-ons (as quoted): advanced networking services, networking appliance, endpoint/server backup & disaster recovery, digital signage.

3. Deliverables & Reporting

- Baseline configuration documentation for the selected lane and core tooling.
- Initial asset and user inventory baseline; ongoing updates via RMM reporting.
- Monthly health report (or as defined by tier/SOW): patch compliance, endpoint status, key alerts, and service trends.
- Service desk ticket history available through the Client portal.
- Change log for material configuration changes impacting security or availability.

4. Client Responsibilities

- Provide required admin access for identity, endpoints, email, DNS, and network equipment within 5 business days.
- Designate a decision-maker for approvals and change requests.
- Use the service desk/ticketing process for support requests unless an emergency is declared.

5. Exclusions / Out of Scope

- Custom software development unless expressly included.
- Unsupported/end-of-life systems unless approved as an exception.
- Compliance certification or security guarantees unless under separate Security/Compliance SOW.

6. Term, Changes, and Acceptance

This SOW begins on the Effective Date and continues for the term selected above. Changes to scope require a written change order.

6.1 Acceptance Criteria

- Lane selected and documented; core agents/policies deployed to covered endpoints.
- Service desk portal access delivered to Client administrators.

7. Pricing & Payment Terms

Pricing for this SOW is based on users, endpoints, sites, and selected options. Fill in the fields below for this engagement.

Tier (Essentials / Office / Business / Enterprise): «Enter Amount / Units»

Core IT Monthly Fee (per site): «Enter Amount / Units»

Per-User Monthly Fee (if applicable): «Enter Amount / Units»

One-Time Platform Provisioning / Baseline Fee: «Enter Amount / Units»

Covered Users / Endpoints / Sites: «Enter Amount / Units»

Optional Add-Ons (list + fees): «Enter Amount / Units»

Unless otherwise stated, invoices are issued monthly in advance and are due per the MSA and applicable invoice terms.

Guarantees and Service Credits

If Client selected any optional guarantees on the Order Form, those guarantees apply to Covered Services under this SOW only as described in Exhibit G of the MSA and the Service Credit Schedule in Exhibit A (SLA).
