

PROACTIVE ECOSYSTEM · LEVEL 4 OF 4

ProActive Enterprise

Advanced managed IT, security, compliance, reporting and multi-site technology governance for organizations that require a more mature operating model.

ProActive Enterprise is the most complete Digerati Experts package. It is designed for organizations with higher operational risk, multiple locations, advanced security posture needs, compliance expectations or executive-level reporting requirements, and includes quarterly strategy cadence and custom backup, BCDR, security and compliance maturity planning.

PUBLISHED STARTING RATE

\$345

per user per month

\$9,000 monthly minimum

BEST FIT

Organizations with compliance requirements, multiple sites, high downtime sensitivity, complex access needs or executive reporting expectations.

ENGAGEMENT TYPE

Advanced or custom managed IT and security ecosystem. Requires a compliance or advanced governance need.

01 Purpose

- Build a mature technology and security program around business risk.
- Support multiple sites, advanced controls, security posture visibility and executive reporting.
- Create structured evidence, planning and governance for leadership and compliance conversations.

02 Typical deliverables

- Quarterly business and security reviews
- Audit-grade reporting package
- Unified security posture summary
- Advanced backup and BCDR roadmap
- Multi-site network and secure access roadmap

03 Scope at this level

CAPABILITY	STATUS	DETAIL
Everything in ProActive Business	● Included	Including 24/7 managed detection and response and backup and DR posture.
Unified security posture	● Included	Full unified security posture program and reporting.
Advanced compliance and risk reporting	● Included	Audit-grade compliance reporting and security business review cadence.
Custom BCDR architecture	● Included	Advanced or custom backup and BCDR program.
Privileged access program elements	● Included	Controls for administrative and high-risk access.
Quarterly executive reviews	● Included	Quarterly technology and security business reviews.

CAPABILITY	STATUS	DETAIL
Spend-card and advanced workplace controls	● Included	Included or customized as part of the broader governance model.

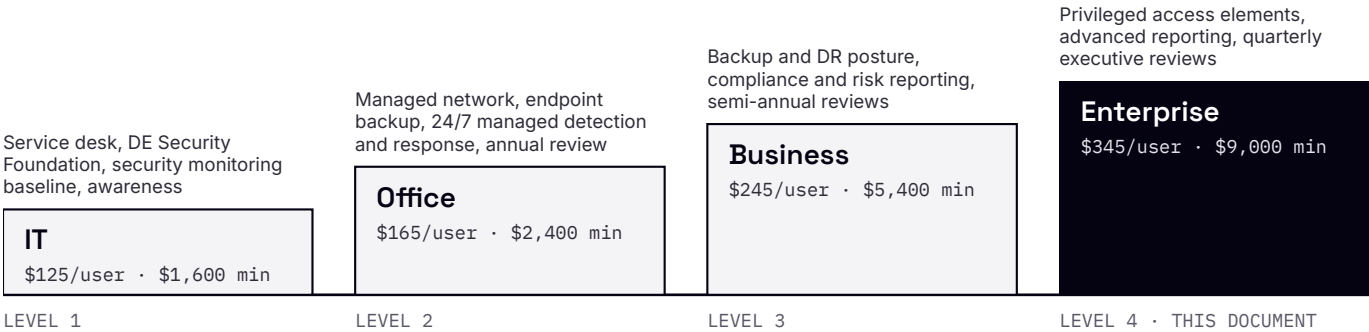

04 Strategy and governance

- Executive roadmap tied to risk, compliance, budget, lifecycle and operational resilience.
- Quarterly reviews can cover security trends, incident summaries, risk register updates, backup readiness, project status and roadmap decisions.

05 Scope drivers

- Compliance requirements, multi-site design, secure access architecture, data protection needs and reporting maturity drive final scope.
- Network solutions are required for multiple-site environments.

06 Where ProActive Enterprise sits

Labels name items from each level's published inclusions. Rates are per user per month, with monthly minimums. Levels describe operating depth, not a ranking.
