

CLIENT PORTAL · HOW TO USE IT

Client Portal Guide

How to get help, track requests, find your documents and keep your account secure. What you see depends on your role.

LAST MODIFIED
October 9, 2026

VERSION
2026.10

ACKNOWLEDGED BY
Every person with a portal account.

TAKE THE TOUR
Choose Take the portal tour in your account menu at any time.

01 Getting help

YOU NEED	GO TO	WHAT HAPPENS
Something is broken	Support Tickets > New ticket	A ticket is logged, you get a number and updates as we work it.
Something new: access, a device, a licence	Self-Service or Service Requests	The right form for the request; approvals are routed for you.
An outage or a security worry	Call DE	Call for anything urgent. Do not wait on a ticket.
A quick answer	Knowledge Base or Chats / DE Desk	How-to articles, or a conversation with our desk.

02 Finding your way around

- **Dashboard:** what needs you now, open tickets and recent activity.
- **Search or jump to** (Ctrl+K, or Cmd+K on a Mac): type a page or a task and press Enter.
- **Activity** (the bell): updates on your tickets, requests and approvals.
- **Account menu** (your initials): settings, light or dark theme, the portal tour and sign out.
- **Company, Contracts and Files:** your account record, signed agreements and documents DE has shared.
- **Billing and Invoices:** what you subscribe to and what is due, for people with billing access.

03 If you approve or manage people

- **Approvals** lists requests waiting on you. Approving authorizes the work and any cost shown.
- **People & Org** is where company IT contacts keep departments, managers and roles current. Tell us the day someone leaves.
- **Licenses** shows your company's licence policy and who holds what.

04 Keeping your account secure

- 01 Turn on multi-factor authentication in **Settings**; a passkey is the strongest option.
 - 02 Never share your sign-in. DE will never ask for your password.
 - 03 Check **Activity** for sign-ins you do not recognize, and tell us straight away.
-

05 Acknowledgement

By signing, you confirm you have read this guide. It is updated as the Portal changes; the latest version is always at <https://digeratiexperts.com/assets/legal/portal/client-portal-guide.pdf>.
