

PROACTIVE ECOSYSTEM · LEVEL 1 OF 4

ProActive IT

Essential managed IT with the DE Security Foundation included, for smaller, less complex environments that need professional technology ownership without a large internal IT burden.

ProActive IT is the starting point of the ProActive Ecosystem. It replaces reactive break-fix support with one accountable partner for users, devices, access and support, and establishes a documented, security-first baseline before the business expands into deeper workplace, backup, security operations and compliance programs.

BEST FIT

Smaller, less complex environments that need essential protection and a documented baseline.

PRIMARY OUTCOME

A managed baseline for users, devices, support and security hygiene.

PUBLISHED STARTING POINT

\$125

per user / month · \$1,600 monthly minimum

What it is for

- 01 Replace purely reactive IT support with a stable managed model.
- 02 Establish ownership of users, endpoints, access, patching and support flow.
- 03 Give leadership one accountable partner for day-to-day IT direction and risk reduction.

Typical deliverables

- 01 Managed IT operating baseline
- 02 User and device inventory direction
- 03 Support escalation path
- 04 Initial Cyber Risk Assessment findings
- 05 Recommended roadmap for add-ons and tier movement

What is included

01 Service desk and issue ownership. Triage and coordination for covered users.

02 DE Security Foundation. Included at every ProActive level.

03 Managed security baseline. Endpoint, identity, email and security monitoring baseline.

04 Security awareness. Awareness and phishing resilience for users.

05 Documented environment. Users, devices and access recorded as the operating baseline.

06 Upgrade path. A clear route into ProActive Office as needs grow.

What is not included at this level

Backup program. No default backup program at this level. Endpoint backup begins in ProActive Office.

24/7 managed detection and response. Begins in ProActive Office; available to ProActive IT clients only as a separately scoped addition.

Compliance reporting. Audit-grade documentation is handled in higher tiers or standalone engagements.

Where ProActive IT sits, and when to move up

LEVEL 1 · THIS DATASHEET	LEVEL 2	LEVEL 3	LEVEL 4
IT	Office	Business	Enterprise
\$125/user · \$1,600 min	\$165/user · \$2,400 min	\$245/user · \$5,400 min	\$345/user · \$9,000 min
Visibility and essential control.	Move up when onboarding, productivity platforms, managed network, endpoint backup and 24/7 detection and response become important.	Move up when the organization needs backup and disaster recovery posture, compliance and risk reporting, and semi-annual planning reviews.	Move up when multiple sites, regulated data, advanced compliance reporting or quarterly executive reviews are required.
