

PROACTIVE ECOSYSTEM · LEVEL 3 OF 4

ProActive Business

Expanded managed IT and security operations for businesses that need backup and disaster recovery, awareness training, risk reporting and planning discipline.

ProActive Business is for companies that need Digerati Experts to take broader ownership of IT and security operations. It moves beyond workplace support into backup and BCDR, cloud storage protection, threat detection, security operations, security awareness and recurring business reviews.

PUBLISHED STARTING RATE

\$245

per user per month

\$5,400 monthly minimum

BEST FIT

Companies where downtime, ransomware, access control, employee risk and planning gaps would create material business impact.

PRIMARY OUTCOME

A stronger IT and security operating program with backup resilience, risk visibility, user training and recurring planning.

01 Purpose

- Reduce business exposure from downtime, ransomware, accidental deletion and access gaps.
- Create recurring technology planning instead of waiting for emergencies.
- Build a more complete security posture across identity, endpoints, email, backup, network and users.

02 Typical deliverables

- Backup and BCDR coverage map
- Security operations summary
- Risk and compliance reporting package
- Semi-annual business and security review
- Prioritized roadmap and budget guidance

03 Scope at this level

CAPABILITY	STATUS	DETAIL
Everything in ProActive Office	● Included	Workplace, managed network, endpoint backup and the IT baseline.
24/7 managed detection and response	● Included	DE Security Foundation with enhanced security operations and threat detection.
Backup and disaster recovery posture	● Included	Endpoint backup, BCDR and user cloud storage protection.
Security awareness training	● Included	Included for users.
Compliance and risk reporting support	● Included	Practical reporting for leadership visibility.

CAPABILITY	STATUS	DETAIL
Planning and reviews	● Included	Budgeting and planning support; technology and security reviews twice a year.

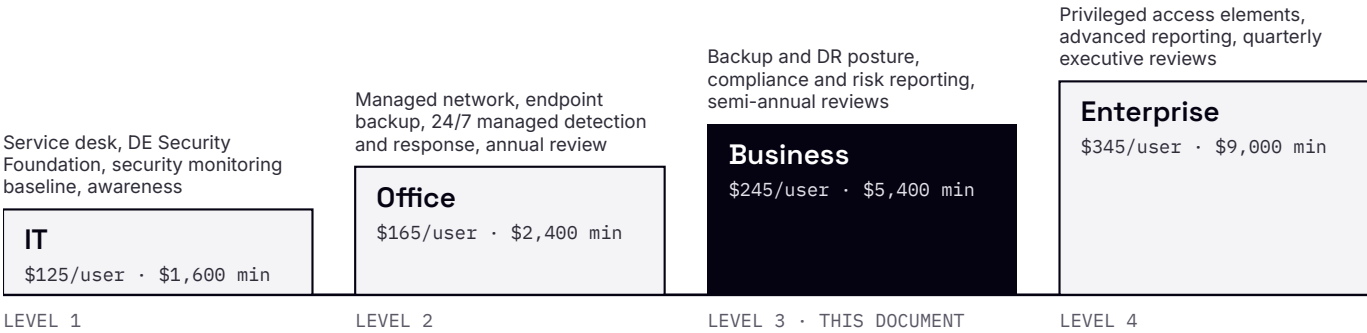

04 Planning rhythm

- Budgeting and planning support included.
- Technology and security business reviews twice per year.
- Recommendations tied to risk, business impact, cost and implementation priority.

05 Scope drivers

- Multiple sites require Digerati Experts network solutions.
- Company spend-card lifecycle controls are required, included or available depending on final design.
- Compliance obligations, advanced reporting and audit preparation may increase scope.

06 Where ProActive Business sits

Labels name items from each level's published inclusions. Rates are per user per month, with monthly minimums. Levels describe operating depth, not a ranking.

07 When to move up

MOVE TO	WHEN
ProActive Enterprise	Multiple sites, advanced security posture, compliance or quarterly strategy cadence are required.

NEXT STEP

Schedule a Cyber Risk Assessment

Confirm the right service level, required controls and implementation roadmap for your environment.
